

HOLIDAY NAXOS

Better than home...

....News from Greece & Naxos

2022, was THE YEAR for tourism in GREECE

For us at Holiday-Naxos we saw a boom in visitors. Around 60% of our guests came from overseas this season. We are so happy that people from all over are discovering our beautiful island and villas.

Naxos is getting more and more popular and not only for the fantastic beaches, but ALSO for its: HISTORY, NATURE, MOUNTAINS, GREAT FOOD AND MOST OF ALL GREAT PEOPLE!

This winter.....

This year we have decided to keep our villas OPEN during the winter months. We know that many have begun working remotely and we want to encourage travelers to enjoy the island at a slower pace. During this time of year there are less tourists which also makes for a nice relaxing vacation. The island offers lots of activities year-round such as hiking, exploring, surfing, kiting, biking and more.

We offer all our houses at lower weekly rates from November-April. Starting at €700/week + optional additional fees. Book a whole month and get 25% OFF. [Email us here](#) with questions

Eat Greek

An important part of visiting new places is to try out new cuisines. Greek food is among the best of the best. Decadent Spinach Pies are very popular in Naxos.

Greek life

"Be careful my child, there are people out there"

Jobs aside - It is very important that while in Naxos you respect and do not interfere with wildlife or agriculture.

Details from our Villas

This time we are showing you the outdoor dining areas of our 4 villas. During the design and construction of these houses, we have put a lot of effort in creating big and comfortable outdoor areas. During summer we all live outside, so the possibility to cook, dine and relax is very important. All our houses have big dining tables and outdoor kitchen with BBQ, fridge, sink with warm and cold water. Offering a lot of space to create tasty meals with your travel companions.

Things to do on Naxos

There are two reasons to hike Mount Zas... to stand on the highest point in the Cyclades and to summit the mountain where Zeus was born and raised.

According to Greek mythology, Mount Zas, also called Mount Zeus, is the place where Zeus spent his childhood. Tucked away on the slopes of the mountain is a small cave where Zeus was born. You can visit this cave as you hike to the summit.

Naxos is the largest island in the Cyclades. It feels vastly different from volcanic Santorini and windswept Mykonos. Naxos is mountainous, fertile, and covered with patches of trees, a rarity in the Cyclades. The geography, and the mythology, make Naxos one of the best spots in the Cyclades to go hiking.

The hike to the peak of Mount Zas is relatively short, but it's also steep and strenuous in spots. In all honesty, the main reason for doing it is for the breathtaking views from the summit and for bragging rights that you stood on the highest peak in the Cyclades.
